Professional Summary

Results-driven Software Engineer & Frontend Developer with hands-on experience in building scalable web applications, responsive user interfaces, and full-stack solutions. Skilled in JavaScript, React, Next.js, TailwindCSS, Firebase, and Django, with proven ability to collaborate on team projects and deliver high-quality code. Passionate about problem-solving, user experience, and innovative tech solutions.

Core Skills

Frontend: React, Next.js, TailwindCSS, TypeScript, Redux

Backend: Node.js, Django, REST APIs

Database & Cloud: Firebase, PostgreSQL, MongoDB, Cloudinary

Tools & Platforms: Git, GitHub, Vercel, Netlify, Docker

Other Expertise: SEO Optimization, UI/UX Principles, Agile Methodologies

Professional Experience

Frontend Developer (Academic & Freelance Projects)

Lead City University & Freelance | 2021 – Present

Built and deployed multiple academic and freelance projects including E-Library Management System, Banking Applications, Inventory Management Systems, and Student Portals.

Designed responsive UIs with React, TailwindCSS, and Next.js, improving accessibility and user engagement.

Integrated Firebase Authentication and Storage for secure login and media handling.

Developed transaction history systems with date/time formatting and local storage persistence.

Improved SEO and ADA compliance for better performance and accessibility scores.

Full-Stack Developer – Safecoin Bank (Web App)

Self-Initiated Project | 2024 – 2025

Designed and implemented a banking web app enabling transactions, history tracking, and validation features.

Built a reusable React component library for inputs, modals, and loaders.

Managed transaction arrays in Firebase for accurate transaction display.

Enhanced UX with smooth navigation, loaders, and responsive design.

Education

B.Sc. in Software Engineering Lead City University, Nigeria | Expected Graduation: 2026

Projects

FarmX Inventory System – Farmers upload, preview, and manage produce with Firebase & Cloudinary integration.

AutoInvoice – Invoice generator for freelancers with light/dark themes, branding, and payment tracking.
