Professional Summary

I'm a Frontend Engineer and the CTO at **FarmX Nigeria** with over 3 years of experience building digital products that actually solve problems. I specialize in the **React ecosystem**, specifically **Next.js** and **Tailwind** and I'm passionate about turning complex Figma designs into clean, responsive, and maintainable interfaces. Whether I'm leading the technical direction for an AgriTech platform or shipping code for **Swotbuilds**, my focus is always on building scalable systems that work for the people using them.

Professional Experience

Chief Technology Officer (CTO) | FarmX Oct 2025 - Present (<https://usefarmx.com>)

- Architect and maintain the frontend infrastructure using React, Next.js, and Tailwind CSS to ensure a seamless user experience.
- Lead technical execution and collaborate on the company's long-term digital roadmap with a focus on practical, scalable solutions.
- Translate complex Figma designs into highly functional, pixel-perfect web interfaces without adding unnecessary feature bloat.

Frontend Engineer | Acaduna (Remote) Nov 2025 - Present (<https://acaduna.com>)

- Spearhead the frontend architecture for the platform, successfully developing and deploying a high-conversion landing page.
- Engineer the dynamic admin dashboard user interface, prioritizing clean, common code structures that easily integrate with the wider team's backend workflows.
- Ensure all user interfaces strictly adhere to provided design guidelines for consistent brand identity.

Frontend Engineer | swotbuilds (Remote) Nov 2025 - Present (<https://swotbuilds.com>)

- Engineer clean, practical frontend components utilizing Next.js, TypeScript, and Tailwind CSS for robust web applications.
- Synergize seamlessly with co-developers to ensure the codebase remains simple, maintainable, and perfectly aligned with core project deliverables.
- Execute UI implementations that exactly match provided Figma design specifications, maintaining high fidelity from mockup to deployment.

Front End Developer | paywithchange (Remote) March 2025 - August 2025

- Engineered responsive web interfaces using React, TailwindCSS, and JavaScript for both mobile and desktop platforms.
- Collaborated directly with UX/UI designers to flawlessly translate design mockups into functional web applications.
- Managed version control workflows utilizing Git to track development lifecycles and deploy new features alongside the backend team.

Selected Projects & Leadership

Frontend Developer | Book Sync (Academic Project) (<https://booksync-amb.vercel.app>)

- Architected the frontend interface for a comprehensive academic assessment project using modern web frameworks.
- Delivered a highly functional, user-friendly digital product utilizing clean code practices to meet strict university evaluation standards.

Co-Founder | The Big 8 2025 - Present (<https://thebig8.info>)

- Co-founded a collective initiative focused on building innovative, user-centric software solutions.
- Drove collective decision-making and agile technical execution to ensure high-quality, practical outcomes.

Education

Bachelor of Science in Software Engineering Lead City University, Ibadan, Oyo State | Sept 2024 - Present

- Member of Google Developers Students Club (2025 - Present)

National Diploma in Computer Science Osun State Polytechnic, Iree, Osun State | Jan 2021 - Nov 2023

- Student Representative Council, NACOS (Certification Awarded with Appreciation)

Professional Training in Software Engineering SQI College of ICT, Ibadan, Oyo State | Jan 2024 - July 2024

- Captain of January Cohort

Certifications

Soft Skills Certification | Jobberman Nigeria

Acquired practical, time-honored competencies in workplace communication, emotional intelligence, and synergistic team collaboration to drive high-quality corporate deliverables.

Core Competencies

- **Frameworks & Languages:** Next.js, React, JavaScript, TypeScript, Tailwind CSS, Node.js.
- **Developer Tools:** Git, GitHub, VS Code, Postman, Figma, Clickup.
- **Methodologies:** UI/UX Implementation, Responsive Design, API Integration, Frontend Optimization, Agile/Scrum Workflows.
- **Leadership & Strategy:** Technical Leadership, Product Strategy, Cross-functional Collaboration.
